

## BABY CLOTHES etc.

### Preparation Directions and Other Important Information – Please Read!

- Items need to be folded neatly and stacked in bags or boxes prior to delivery. A pressing fee will apply if items are not folded.
- All items need to be prewashed to ensure the fabric has been preshrunk. In the vast majority of cases, these items have been used and washed many times; we have included this note on the off chance you may have a never- been-worn item that may hold a memory.
- If there is any part of the item you do not want used, “X” it out with masking tape. We do not use buttons, zippers, pockets etc. in the quilt.
- Stains – we consider stains as part of the memories tied to your quilt. In most cases, unless they are very pronounced, they will take a comfortable “back seat” to the artistic design and stitching. We will also cut from the least worn areas of the clothing first. So, if you share our viewpoint on stains, there is no need to do anything. Otherwise, please use masking tape and identify these areas with an “X”, and we will avoid them altogether.
- If you are concerned you will have too many baby clothes for the size of quilt you would like, then put the least wanted items in a separate bag. Be sure to clearly label the bag. Any unused items will be returned to you with your quilt.
- If we communicated with you via email regarding a special request, please print out and attach the email to this order form. If you spoke to us on the phone, please remind us of what we discussed by writing the details on Page 1 of the Order Form under the “Comments or Special Instructions” section.
- We take the highest level of care when working with our customer’s personal items. However, quilters are human. We ask that you please understand if an accidental slip occurs during the manufacturing process that results in an item being unusable.
